

How to engineer,
construct and
maintain this...

Welcome to an
exclusive seminar:
**PLM for the Off-
shore Industry**, June
3rd in Norway and
September 22nd in
Denmark

How does the offshore industry benefit from Product Lifecycle Management?

The answer lies in the extraordinary capabilities in global project collaboration. Offshore projects need collaboration tools for hundreds of people from many companies around the globe, total traceability, project visibility and control – just to get going. This is our area of expertise, and together with industry experts we'd like to share this knowledge with you at our seminar, which will focus on **standardization, global project collaboration, and requirements management.**

Get ahead by learning everything about PLM for the offshore industry

Technia is a leading, specialized and highly professional company with a mission: to help our clients become more competitive through innovation, smart collaboration and streamlined processes. Now we'll gather the offshore industry to exemplify the huge benefits of a platform for global project collaboration that truly binds together all parties. We welcome anyone who wants to get ahead in PLM.

For more details about the seminar and how to register – please turn page...

technia

What can Technia offer the offshore industry?

Technia is a total supplier of solutions where we together with the customers create and adapt systems and processes for the customer's needs. Technia has large experience from many industries and sectors, which makes it possible for us to offer some new and different ways to look at old problems.

Mac GREGOR

The market for MacGREGOR cargo cranes is global, with owners and shipyards spread all over the world. The PLM solution enables global access to product information and support MacGREGOR's complete business process from concept design to after sales and services, which in turn will improve MacGREGOR customer responsiveness. The PLM system will be the global master for all items and product information and manage all related processes.

Schlumberger

"At Schlumberger, our goal was to have all information available anywhere, anytime, to anyone authorized to use it or contribute to it in order to be able to design anywhere, build anywhere. With Enovia MatrixOne we achieved this and more. We optimized our change processes and made them twice as fast. In addition the transmission of data from development to operation now flows 10 times faster. What we used to do in six months, we can now do in 10 days" Douglas Burgess, Global Service Delivery Manager PLM/CAD/LSS at Schlumberger

...from anywhere
in the world?

Time and place

We and our partner Dassault Systèmes welcome you to participate in the following cities:

June 3rd, Stavanger, Norway

Sola Strand Hotel, Nordsjøveien, Stavanger

September 22nd, Kolding, Denmark

Scandic Kolding, Kokholm 2, Kolding

Keynote speakers

Jann Kåre Slettebakk (only in Norway)
Vice President Engineering
Aker Solutions

Hans-Peter Jörgensen (only in Denmark)
Vice President Rig Projects
Semco Maritime A/S

Ola Ødegård
CEO
Octaga

Agenda

The event starts at 09.30 and ends 15.30

- 09.30 Registration and coffee
- 10.00 Welcome and introduction
-Tore Brathaug, Director Operations, Technia AS (in NO)
-Jesper Månsson, Sales Executive, Technia Malmö (in DK)
- 10.15 Global project collaboration
-Tore Brathaug, Director Operations, Technia AS (in NO)
-Johannes Storvik, Manager Products & Technology, Technia AS
- 11.00 In Norway: Effektiv samhandling mellom ulike aktører i offshore prosjekter med ISO 15926
-Jann Kåre Slettebakk, Vice President Engineering, Aker Solutions
- 11.00 In Denmark: Krav til styringsystemer og Engineering Management
-Hans-Peter Jörgensen, Vice President Rig Projects, Semco Maritime A/S
- 11.45 Lunch
- 12.45 Bringing the enterprise data to life – interactive 3D in PLM and operational support
-Ola Ødegård, CEO, Octaga (in NO)
- 13.30 Requirements Management
-Johannes Storvik, Manager Products & Technology, Technia AS
- 14.15 Concluding remarks
-Ketil Aamold, Sales & Marketing, Technia AS (in NO)
-Jesper Månsson, Sales Executive, Technia Malmö (in DK)
- 15.30 End

Register already today for the seminar!

For registration, please visit our website at www.technia.com/offshore_seminar where more details about addresses etc can be found. Our representatives Ketil Aamold in Norway and Jesper Månsson in Denmark will be happy to take any questions you may have regarding this event. Contact them via email or telephone:

Free of charge

Ketil Aamold, ka@technia.com, +47 930 59 306

Jesper Månsson, jem@technia.com, +46 704 54 25 95

The event is free of charge, but please note that a registration followed by a no-show will be invoiced with € 50,-.

Register on our web site, www.technia.com/offshore_seminar

Please register no later than May 28th (Norway) and Sep 17th (Denmark)

Brought to you by:

technia

Technia is a world-class supplier of Product Lifecycle Management (PLM) solutions for the creation and management of product information throughout the entire product lifecycle. Technia has about 200 employees and is a part of the Addnode group (listed at the OMX Nordic List, Small Cap). The company is a strategic partner to more than 200 Nordic companies and has offices in Sweden, Finland and Norway. Technias customer list includes: BT Products, Ericsson, Elcoteq, Electrolux, ESAB, Forsmark, GE Healthcare, Haglöfs, Komatsu Forest, Mari-off, Metso Paper, Mölnlycke Health Care, Nokia, Oticon, Proximion, Scania, Seco Tools, Sectra Mamea, Skanska, Sony Ericsson and SSAB.

For more information about Technia, please visit www.technia.com.

Octaga

Octaga AS is a producer of world class, real-time 3D software products and services for operation, maintenance, simulation and training. With Octaga Enterprise Suite it is possible to get access to any CAD database and make it available in a high quality visual interface for all users. Octaga has a strong focus on being ISO standards-compliant and has implemented support for ISO 15926 and IFC. Octaga is targeting industrial markets like Process, Plant, Energy, Oil and Gas including BIM (Building Information Models).

For more information about Octaga, please visit www.octaga.com.

**DASSAULT
SYSTEMES**

As a world leader in 3D and Product Lifecycle Management (PLM) solutions, Dassault Systèmes brings value to more than 100,000 customers in 80 countries. A pioneer in the 3D software market since 1981, Dassault Systèmes develops and markets PLM application software and services that support industrial processes and provide a 3D vision of the entire lifecycle of products from conception to maintenance. The Dassault Systèmes portfolio consists of CATIA for designing the virtual product - SolidWorks for 3D mechanical design - DELMIA for virtual production - SIMULIA for virtual testing - ENOVIA for global collaborative lifecycle management, and 3DVIA for online 3D lifelike experiences. Dassault Systèmes is listed on the Nasdaq (DASTY) and Euronext Paris (#13065, DSY. PA) stock exchanges. For more information, visit www.3ds.com

CATIA, DELMIA, ENOVIA, SIMULIA, SolidWorks and 3D VIA are registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or other countries.
