I am familiar with the project conditions for MCE\_DD August 2008.

**Signature and stamp:**

**Date: \_\_\_\_\_ - 2008**

.....

General conditions for joint exhibition in the offshore sector  
in connection with the MCE-DD at the Bella Center, Copenhagen.

## **Project conditions for Danish Pavilion at MCE\_DD**

(Supplement to registration form)

The conditions below are valid in relation to registration unless they have been deviated from in another written agreement between the parties.

1. The contractual basis for participation in this joint exhibition is a binding registration form filled in and signed by the company plus these present project conditions for participation. The extent and terms of the export drive are outlined in the specific presentation and description provided by the project supplier Tofko Business Development A/S, from here on referred to as Tofko.
2. The "MCE\_DD" Danish Pavilion will only be carried out to its full extent, if at least 80% of the full 117m<sup>2</sup> stand area is sold before November 1<sup>st</sup> 2008. The given prices are based on the condition that the stand area is fully booked.
3. By returning the binding registration form to Tofko, the company is obligated to pay the price stated in the presentation. The price is based on a minimum number of participants. Should this minimum number of participants not register, Tofko reserves the right to cancel the Danish Pavilion or choose to send out a revised presentation containing new prices which will form the basis for a Danish Pavilion with a reduced group of participants.

Payment must proceed according to the following plan:

First rate: 50 % of the price + registration fee is to be paid after invoice is received. Second rate: 50 % of the price no later than December 1<sup>st</sup> 2008. Time of payment is 14 days from date of invoice. In the event that Tofko's terms of payment are not met, Tofko is entitled to add interest to the amounts due cf. conditions stated on invoice. The given times fixed for payments and amounts are necessary to secure the cash flow in the project.

In the event that Tofko chooses not to carry out the Danish Pavilion due to lacking interest, all payments will be returned without deductions of any kind. If a registered company cancels or reduces its participation, whatever the reason, Tofko has a claim on the price agreed.

4. The participating company itself is responsible for taking out its own necessary insurance for own employees, luggage, goods and public liability in connection with the project. The companies themselves must defray travel and accommodation expenses plus all expenses relating to own working time and brochure and sales material.
5. The information given and received by the company is considered confidential and project participants are not allowed to pass on such information without accept of the respective companies. Tofko will not take on any obligations or responsibility for any breaches to third parties.
6. Tofko cannot be held responsible for damages caused by tortious act by the participant's use of project materials or methods, and the participants are not entitled to claim any restitution from project holder for any loss, disadvantage or damage in connection with any flaws and lacks in the acquired project knowledge, even if the cause should be inadvertent actions or omissions committed by project supplier or associated employees. Nor can project supplier be held responsible for incidents and consequences stemming from war, strike, lock-out, political conditions, force majeure, or any other circumstances beyond the control of the project supplier. Likewise, in case of cancellation of the export drive due to the above-mentioned conditions, the participating companies are obligated to pay their share of agreed commitments and expenses already defrayed in connection with the project, unless these costs are covered by another party.
7. Products, deliveries and services, which are not included in the project, will only be delivered against separate payment and only with reference to written order confirmation.
8. Ownership of the project and materials developed, including websites, computer models etc., remains with the project supplier, and copying of project material and –disc is only allowed after written agreement with Tofko Business Development A/S.
9. Our services are subject to VAT cf. current law.
10. Project supplier reserves the right to change the content and development of the project along the way and to replace consultants and other resource personnel.
11. In the event of any dispute or controversy between the parties in relation to this agreement or its interpretation in connection with the project, the dispute is to be settled amicably, or if not possible, at the Danish court of arbitration at the court in Aalborg, Denmark.
