www.offshore-denmark.dk

The association Danish Marine & Offshore Group addresses Danish supplier companies, institutions and knowledge centres with interests in the offshore industry. The idea of the association is to create a forum for strategically co-operations with a clear aim, - growth and international trade

www.iro.nl

Since its foundation in 1971 IRO promotes the interests of the Dutch supply and service companies in the upstream oil and gas industry. Members cover all activities involved in the supply industry, such as engineering, field development, pipeline installation, maintenance, manufacturing and material & equipment supply, onshore as well as offshore. IRO represents the interests of 350 member companies

www.norskindustri.no

On 28 November 2005 the new organization Federation of Norwegian Industries was established. The new Federation became formally operative from January 1st 2006. The Federation of Norwegian Industries has approx. 2,000 member companies and a major part of these are working in the oil and gas industry. Total annual turnover for the sectors which the Federation represent exceeded NOK 530 billion in 2006.

www.agoria.be

The B.O.G - Belgian Oil & Gas Group -, an initiative of Agoria gathers over 100 prominent companies active in various segments of these industries. Some of them are world leaders in their speciality. The main objective of the B.O.G is to be a platform to promote the products and services of our members to the global oil, gas and energy market.

www.the-eic.com

The Energy Industries Council (EIC) is the leading Trade Association for UK companies that supply capital goods and services to the energy industries world-wide. The EIC is the largest organisation of its kind in the UK. Our head office is in London, and we also have offices in Aberdeen, Billingham, Houston, Singapore, Dubai and Rio de Janeiro.

www.oil-itf.com

ITF, a 'not for profit' organisation is owned by 22 major global operators and service companies. Our key objectives are to identify technology needs, foster innovation and facilitate the development and implementation of new technologies. To date ITF has been responsible in delivering 120 new collaborative and revolutionary oilfield technology projects to the market, securing direct ITF membership funding of around £35 million.

www.scottish-enterprise.com

Scottish Enterprise are Scotland's main economic, enterprise, innovation and investment agency. Scotland is the UK's main centre for shipbuilding and ship-repair and is focused primarily on the design, manufacture and support of complex warships and specialist ships. Scottish yards also undertake the design and production of complex vessels for niche markets.

www.geb-france.com

GEP, the Trade Association for the Oil & Gas Industry, is a non profit association created in 1953. GEP represents the interests of about 160 companies registered in France: engineerings, contractors, equipment suppliers and service companies working for the international oil & gas industry.

www.ens.dk

The Danish Energy Agency was established in 1976, and as of 23 November 2007 is an Agency under the Ministry of Climate and Energy. The Danish Energy Agency carries out tasks, nationally and internationally, in relation to the production, supply and consumption of energy.
